

Welcome

Congratulations on making the decision to feel better and live better!

Often times a visit to the Doctor just isn't enough. We are here to help. We provide Mental Health Counseling for families, individuals and couples in a professional, safe setting. Our licensed professional staff will work closely with you to develop a treatment plan that reflects your needs and goals.

Our Professional Counseling staff specialize in Family Counseling, Depression, Anxiety Disorders, Major Depression, Relationship Strife/conflict, Grief and Loss and supportive therapy.

Our Medical Staff follows your care closely. Our Psychiatrist, Psychologist, Physicians Assistant, Medical Assistant, Family Nurse Practitioner are here to help. Our staff can work hand in hand with your Family Physician or other health care provider. If you need a physical, or require specialized medication management for your emotional well-being, qualified professional staff are here to assist you.

Through our Developmental Programs and Community Reintegration programs, we can work in the home and community to address Behavioral Health and Mental Health Issues. These programs offer an intense outpatient care plan with individual attention to focus on both adults or children who require additional support. Our Case Managers are here to help you navigate what can seem confusing and often overwhelming.
